Marriage Compatibility Based on 9 Planets

In Vedic astrology, the nine planets (Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn, Rahu, Ketu) determine the major events of life. In marriage compatibility, it is important to study how the nine planets affect the relationship in the horoscopes of both the partners.

Each planet represents a part of life.

- Sun - indicates individuality and arrogance.
- Moon - checks mental feelings.
- Venus - explains love and sexual relationships.
- Mars - shows vitality and physical attraction.
- Jupiter - indicates wisdom, wealth, children and morality.
- Saturn - ensures stability and patience in relationships.

Furthermore, since the influence of planets closest to the earth is greater than the influence of stars far from the earth, this 9-planet matching is a more accurate prediction method than the ten matchings and 36-character matchings based on stars.

Thus, by examining the influence of each planet, the complete matching is accurately predicted.

Benefits of 9 Planetary Compatibility:

1. Complete Understanding:

As it calculates the influences of all the planets, it helps in understanding the couple's relationship completely.

2. Customized Remedies:

If certain planets indicate problems, remedies (mantra, puja, gemstones) can be recommended for them.

3. Better Decision-Making:

With planetary compatibility, decisions regarding marriage can be taken with confidence.

4. Improves Family Peace:

Navagraha compatibility will strengthen the faith of both families for marriage.

5. Strength of Relationship Based on Science:

Planets reveal the weak areas of the relationship and help in improving them.

Therefore, marriage matching based on 9 planets helps in understanding the relationship completely and leading a happy and permanent life.
